## PROFESSIONAL EXPERIENCE

### **User Experience/Web Design (Kabam Games)**

***Interactive Designer***

***May 2011 to Present***

Interaction and visual designer working on Kabam's new web platform. Working closely with Lead Web Designer to design and implement complex web features and create original branding styles for multiple product sites. Was brought on as a key designer to work on the project from conception to public launch.

### **Multi-Media Creative (Egan Media Productions)**

***Motion Graphics Artist, Designer***

***June 2010 to May 2011***

Media artist at established production studio. Created and animated original assets for motion-graphic slates, and designed and implemented visual branding for the studio's new web initiatives.

### **Project Management/Design (The Soap Collective)**

***Co-Founder, Creative Lead***

***October 2009 to Present***

Founder and Project Lead of independent multi-media design group. Developed web, print designs, and identity branding for a range of clients. Led internal and contract projects, including *Designed for Culture*, *Lupine Pet*, *Ginth*, and an upcoming iPhone game.

### **Quality Assurance (Animetrics Inc.)**

***Quality Assurance Technician***

***June 2004 to December 2008***

Assisted in the development of world-class 2D to 3D facial biometric software. Tasks included data entry, interface design, and bug-detection to be communicated with the software development team. Directly influenced and improved the quality and performance of essential company applications.

---
